

Capabilities of Leadership for the Fourth Industrial Revolution

Developing an Agile Mentality to Drive Innovation

Introduction

The goal of this training program, "Capabilities of Leadership for the Fourth Industrial Revolution," is to cultivate creative, persuasive, and dynamic leadership for the upcoming Fourth Industrial Revolution. This calls for leaders who can think more nimbly, adjust to change fast, be receptive to disruptive tactics, and persuade others to accept new ideas with ease. It is also directed towards executives who will have to spearhead the process of organizational recovery from the COVID-19 pandemic. They will need to use disruptive models, strategy, creative innovation, and technical advances to cultivate an agile mentality that will prepare them to lead the new future.

This course will enhance your leadership development to impact organizational transformation via the "4th Industrial Revolution" and the "new norm" by utilizing cutting-edge leadership theories and experiences gathered from recent global events in conjunction with creative and innovative thinking models.

This training session on Course N Carry will emphasize:

- A definition of the Fourth Industrial Revolution and a look ahead at leadership
- The fundamentals of strategy and developing a disruptive business plan
- How to quicken the adoption of an agile mindset via creativity and innovation
- Accepting change by being proactive in your invention
- Engage in the Fourth Industrial Revolution and persuade others to embrace fast change.

Objectives

Upon completion of this training course on Capabilities of Leadership for the Fourth Industrial Revolution, you will acquire the ability to:

- What are the essential guidelines for leadership in the fourth industrial revolution?
- Recognize business strategy and the important components of disruptive strategies.
- Learn methods and strategies to improve your ability to think creatively and innovatively.
- Oversee and spearhead swift organizational transformation

- Overcome aversion to change, novel concepts, and technological progress

Training Methodology

Using a range of tried-and-true adult learning, teaching, and facilitation strategies, the tutor will provide participants with a comprehensive education on the topics contained in the course outline. The highly participatory and dynamic training program includes exercises and expertly shown real-world examples related to the selected subjects. These will consist of focused exercises, case studies, extremely pertinent movies, and lively, stimulating conversations about the subjects addressed.

Organizational impacts

Sending delegates on this Capabilities of Leadership for the Fourth Industrial Revolution training session will be very beneficial to organizations because:

- Ensuring complete comprehension of what it means to lead in the context of the Fourth Industrial Revolution, doing away with ambiguity and misconception
- Gaining future leaders within the organization who are more driven, self-assured, and capable
